

INTERNATIONAL TRAINING COURSE

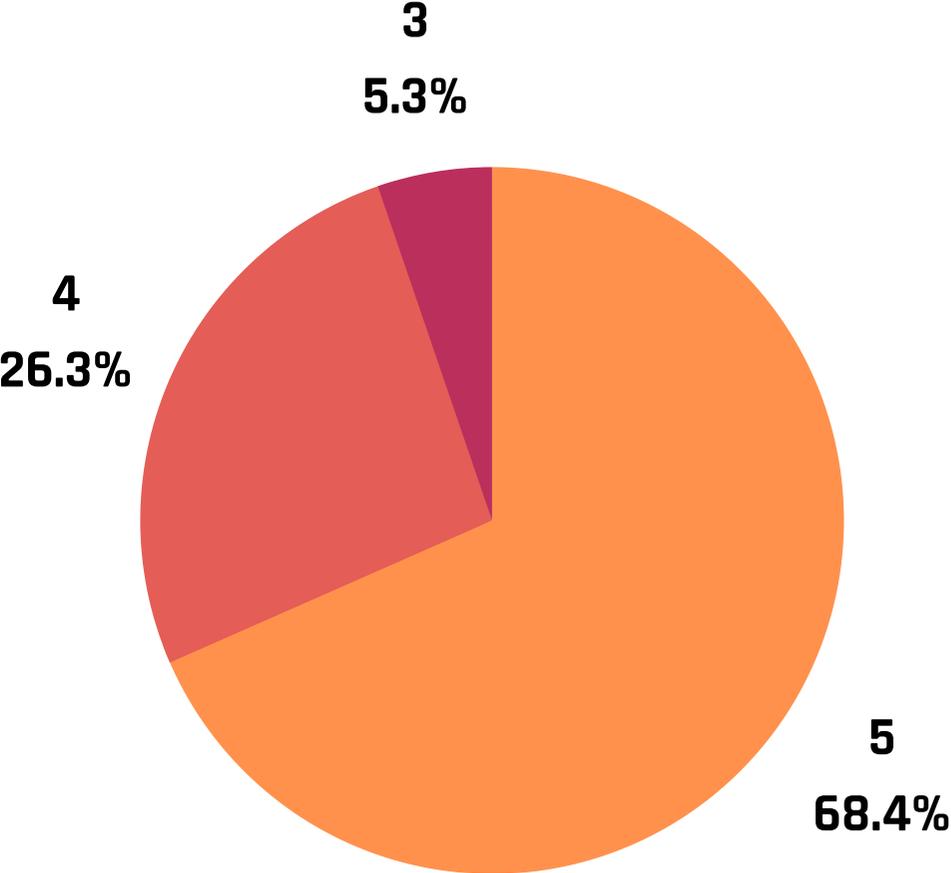

WORK ONLINE WITH YOU(TH)

**EVALUATION
RESULTS**

DID THE PROJECT MEET YOUR EXPECTATIONS?

1 - No, not at all
5 - Yes, it did

ADDITIONAL COMMENTS

- Yes!! I really liked it. Some suggestion: I think water should be put outside and made available easily.
- It has overcome my expectations
- It was one of the best project where I've been, thank u so much ♥
- It was a little tiring and intensive for me but I learned a lot of new things during these days
- It was great to listen to different people experiences with On-line learning and I'm happy that they have been for the most part honest about their feelings about on-line learning. A big disappointment was that in a project about on-line learning we had problems with the internet connection.
- I found it really fruitful. It helped me polished my skills and let me know about other cultures. In my opinion listening from instructor regarding the issues of online education was wonderful but may be it would be better to limit it to two teacher for the next time.
- Actually it surpassed my expectations pretty much
- It was a special one
- It was my first project and I really enjoyed it. I did not expect it to be that good in every aspect of the training course.

WHAT NEW COMPETENCES RELATED TO ONLINE LEARNING/WORK DID YOU ACQUIRE DURING THE PROJECT?

- Debate
- DEBATES, public speaking, problem solving, basic video editing,
- Video editing
- New technical equipments (filmora)
- I learned how to use zoom, make meeting there. I got to know a lot of useful apps for learning online from teachers.
- Learned how to make google rooms and pull in teams.
- Working with Zoom, working with filmora, live broadcasting
- I know how to use zoom meetings, create quizzes, how to make live broadcast, debates online
- I have learned about Oxford debates
- I learnt a new information about digital platforms which was implemented during covid-2019, also, how use some of them in work and study
- The opportunities with Zoom, new online tools for education, video maker software, communication skills, energizers, icebreakers.

- Learning to learn, communicating meaningful with others, how to use different online methods in working with young people
- New knowledge about some zoom options and video making skills
- I learned about online training tools that I can further research depending on my future needs.
- I really learned more how to use zoom. New ideas how to make online meetings more interesting.
- I had just a basic knowledge regarding the video editing and I got to know a about it more .Apart from that there were some specific features in zoom which I wasn't aware but I got to know in this project.Apart from that I got to know about some apps like quizzlet etc which was new to me.
- Temporary gain of self-confidence, insight how to dabate and how Oxford debates work, how to cooperate etc., get to know Zoom, Filmora, StreamYard environments
- Knowledge about organization meetings in Zoom. And I learned a lot of new programs for working online(quizlet, teams, filmora) which could help me in future.
- I learned how to engage people in activities even in online space. Also, how to use Zoom, Filmora and Kahoot properly. I learned about "Oxford style" debates and improved soft skills.

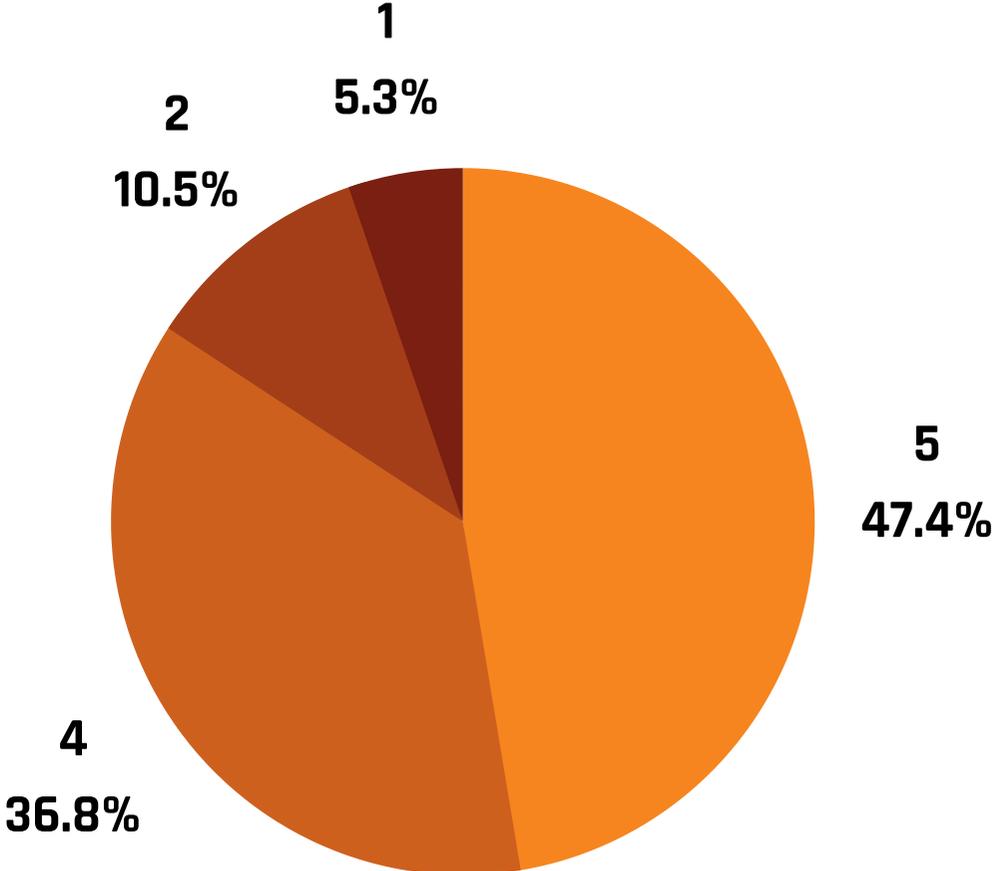

HOW WILL YOU USE THE KNOWLEDGE GAINED DURING THIS TRAINING COURSE IN YOUR FUTURE ACTIVITIES?

- I will use at my job.
- I think I can apply these to my career and
- I do not know
- I'm gonna share with my collauges, students, participants, keep presentation in the local communities, schools.
- I am a ballet teacher. If in the future we will have a remote learning, like we had this two years, I will definitely use all the knowledge I got on this project.
- I will know how to create google rooms and pull in teams, now I will know how to use certain apps.
- I will get more confidence, I will be able to use Zoom
- I will feel more comfortable with organising meetings online, creating debates, making videos
- For sure I will use some exercises methods with people who I know
- I hope its really will be useful in my future career, also I be able to use some of knowledge in my study process. I would like to share my experience with students from my university and my friends

- I will use the knowledge in online activity with young people
- I will use more options in zoom meetings. I will take some activities (workshops/team buildings) ideas and use them from my future
- I will be more open to online trainings or meetings and I will appreciate more the commodity of them. I learned that there are times when online meetings have their place, and if all the people involved are properly trained, nice things can happen in online too!
- I will use a lot of things in my future online meetings.
- I will use it for making my online session/meeting more interesting by using the features/tools I have used here.
- I'll spread what we were doing here to my friends and anybody interested, I may start to create videos or maybe I'll apply to an alternative to Oxford debates provided by our uni, I could utilize the knowledge how to make videos live
- For now i don't know, but i am sure, that I have greatly expanded my horizons in this topic and that in the future this knowledge will be used.
- I will implement it into my school work. It will be very useful when making presentations or group projects. I gained many knowledge on how to work in teams so I will definitely use some of the techniques mentioned in workshops.
