HUNGARIAN IN UK

My name is Alex, in my passport and on Facebook my first name is Sandor, but I use the international version when I am not talking to Hungarians, to make things simpler. In Hungary, before I moved to England I took part in organizing projects like yours now, but I felt stuck in Hungary and wanted to explore a bit more of the world, so I first moved to Nottingham at 2015, then to London in 2016. I started to work at McDonald's, then found my place working in social care, first working with people with autism and learning disability and then I moved on to work with people with mental health and drug issues. Nowadays I mostly work with young people who are at risk of homelessness or asylum seekers who arrived in the UK as unaccompanied minors.
